SANDS' SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM, NAMELY:

Scrofula, or King's Evil, rheumatism, obstinate cutaneous eruptions, pimples, or pustules on the face, blotches, biles, chronic sore eyes, ring worm or tetter, scald head, enlargement and pain of the bones and joints, stubborn ulcers, syphilitic symptoms, sciatica, or lumbago, and diseases arising from an injudicious use of the mercury, ascites, or dropsy, exposure or imprudence in life. Also, chronic constitutional disorders will be removed by this preparation.

The proprietors submit to the public the following certificate, from a highly respectable source, of cure made by using their preparation of Sarsaparilla, which cannot but have the effect of placing beyond all doubt the curative powers of the medicine.

New York, August 3, 1842.

"Messrs. Sands—Gentlemen: Under a feeling sense of gratitude inherent to us all when suddenly relieved from suffering and disease, I now, as an act of justice due to you, and with a view of relieving an afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaparilla. In the year 1832 I sailed from England in a vessel bound for Quebec, and while on the passage first discovered the disease which after proved to be a sore affection; and truly I can say, from the crown of my head to the sole of my foot there was no soundness in me. From the time first mentioned down until the present, a period of more than ten years, I have suffered all that human nature was capable of bearing. I have been under the care of the most distinguished physicians both in this country and in England, visited Bath, Cheltenham, Bristol and Gloucester, tried various specifics, among others a large quantity of Swaim's 'Anacea,' used sulphur baths, &c. As a last resort I was induced to wrap myself in a tar ointment, keep myself secluded, shunned by all, myself also running. I was induced to believe my case a hopeless one.

In August last, by the advice of friends, I went to the New York City Hospital, but was there told that my case was incurable. The disease now enveloped my whole body, rendering me almost helpless; the skin thickened and cracked, and blood and matter ran, and life itself became almost a burden. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, having spent nearly \$3,000 without obtaining but little relief. After using it a short time, I found myself better, and now, by using six or eight bottles, costing me less than ten dollars, I am well. Yes, I certify and declare to the world, that after spending near \$3,000 in traveling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparilla, and I now recommend it to all similarly afflicted, and those wishing to know further particulars will find me at my residence, No. 27 Warren street, New York, where I shall be happy to communicate any thing in relation to the above cure.

PAUL BURDOCK."

Prepared and sold by A. B. SANDS & Co. Druggists and Chemists, Granite Buildings, 273 Broadway, corner of Chambers street, New York. And for sale by Druggists throughout the United States. Price \$1 per bottle, six bottles for \$5.

The public are respectfully requested to remember that it is Sands' Sarsaparilla that has and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject, and ask for Sands' Sarsaparilla, and take no other.

G. W. LADD, Agent for this vicinity, and dealers will be supplied very low by the dozen.

DOCT. E. PRATT'S IMPROVED ARTIFICIAL NIPPLE.

TO the Medical Faculty it is presented for demonstration as a desideratum, when properly applied, in the following cases, viz.—where the nipple is inverted; where there is excoriation in its irritable form; or, even where it has completely sloughed. Perhaps the most extraordinary circumstance pertaining to its operation, is, that it operates with perfect ease to the Mother, and perfect facility to the Child. It will be seen at a glance that this article is far superior to any other article of the kind which has yet been offered to the public.

They may be found at A. P. GUILD'S, Druggist, Exchange-st.

PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order, they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs., Messrs. Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Peirce & Co. Bangor; Hon. J. S. Little, Portland; Hon. John Otis, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Peirce, Esquires, Frankfort; Daniel Dennett, Esq. Milo; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira Wadleigh, Esq. Oldtown; Capt. R. Fittz, Dedham; John Black and John M. Hale, Esqrs. Ellsworth; Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of MESSRS. HINCKLEY & EGERY and FRANKLIN MUZZY & Co in this city, who are furnished with a great variety of patterns, so that Wheels of any particular description, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

LOOKING GLASS & PICTURE FRAME MANUFACTORY.

FAIRBANKS & HOLLAND, PEARSON'S MILLS, BANGOR.

THE public are informed that we have established a manufactory for making LOOKING GLASS, PORTRAIT AND PICTURE FRAMES, of all sizes and varieties. We have set up suitable machinery in all the branches of the business by which much labor is saved and the price of these rich and beautiful articles is greatly reduced, so that a fine article may now take the place of coarse and all looking ones, and at as low a price.

Large and elegant O G and bevel frames, and small bevel frames with rich mahogany veneer are manufactured in such quantities that we are prepared to answer, at short notice, all orders at

WHOLESALE, by the hundred or thousand, at prices that cannot but be satisfactory to dealers.

New frames fitted to Portraits, Looking Glasses or Pictures, or new glasses furnished and fitted to old frames.

Dealers supplied with frames either with or without glasses.

N. B. Orders respectfully solicited for single frames or by the dozen; and as this is a new branch of Home Manufacture to any extent, we trust the public will be ready to encourage and support the

The Militia.

It is fashionable to consider the militia as a very necessary department of the Government in time of war, of invasion, and of great insurrections, but a very useless and ridiculous branch of that Government in time of peace. This is taking a partial and one-sided view of the subject, and entirely overlooks the real character of the militia. But let us dwell a moment upon the militia in its supposed character as only useful in time of war; and see, if even in this aspect it should, in time of peace, be made the subject of ridicule and neglect. If there be a branch of the government needed in war, then it is the part of wisdom, at all times, to preserve its efficiency, and its honorable character against the time of need. Else when it may be needed, if it has been neglected and dishonored, its efficiency will be lost. So that upon the lowest view that can be taken of the militia, it is the duty of the government and people to sustain it.

But we prefer to place the militia upon a higher basis, and to give a higher and more active character than is usually granted to it. We consider it not only the active agent to resist foreign invasion and to quell domestic insurrection by sanguinary conflict, but one of the great constantly active conservative powers to restrain the evil passions of men, to give security to the weak, and certainty to the administration of law. It forms the shield that protects society in its rights—in the peaceable possession of its property and in the enjoyment of the elective franchise.

Deeper than all this force, the good man finds a moral light which guides him in the path of duty. To him no such power is necessary. True. Neither for such men are written laws, or courts, or prisons necessary. Give them the school room, the temple of worship, and the family circle, and they live in kindly fellowship with their fellows, and in communion with their God. But the number of this kind of men, is small. The great majority of men, at least, when under temptation, need some restraining power. That power, with some, is found in the penalties of the written law, and that penalty finds its last power and certainty in the military arm. Here, then, the militia is a constantly active power in its influence upon the passions of men. Though unseen, it is felt. This view of the militia should be taken by every legislator, and by all interested in sustaining the government as a whole.

We have been led to take some notice of the militia from examining the General Orders of this Division and Brigade.

General Stevens remarks that he is "well aware of the great impediments in the way of a good officer's faithful discharge of his duties, even to his own satisfaction, as well as many discouragements, under which the soldiers generally labor, owing to the imperfect and unpopular organization of our militia, and the illiberal and inconsistent policy adopted by our Legislators, unbecoming an independent and enlighten-

ed assembly, in withholding proper countenance and support, and refusing the necessary means of instruction, tending rather to embarrass and break down this essential branch of our free government, than to attach to it that importance and respectability it so justly merits, and thereby strengthen the hands and animate the hearts of our soldiery."

General Hersey, in his order, says:—"He regrets that our Legislators, for several years past, have pursued a policy so detrimental to the best interest of this time-honored Institution, and hopes that a more liberal and consistent policy will be adopted. Our Legislators have not made the necessary appropriations, and our militia is almost deficient of the means of instruction. The whole system has, in some measure, been brought into disrepute by this contracted State policy, and by the enactment of Laws subversive to its best interests."

These are out-spoken complaints from the head quarters of this Division and Brigade, and are therefore worthy attention.

The locus in the State Legislature spend so much time in talking about legislating for the General Government, and talking care of General Jackson's fine, and Amos Kendall's debts, that it appears like too small business for them to inquire into the wants of their own neighborhoods and provide suitably for their own State. They want to see how it seems to talk about the same things representatives do at Washington, like a man who put his head into a pork barrel to see how it would seem to be called a captain.

Notions of Ceter P.

When I see young men visiting fashionable groceries and wasting their evenings in loafing, I've a notion it will not be long before they will turn right into riot, and themselves be turned into the House of correction.

When I see a man of education, talent, age, and the father of a family, delighting in babbling street controversies on grave subjects, I've a notion his want of circumspection makes him less efficient in promoting good causes, than a much less gifted but more discreet advocate. He is like a bell on a cat, more for ornament than use.

The current turned.

We noticed yesterday a large number of buckets at the Rail Road Depot in this city, in nests of three, on their way from the manufactory at Milford, to Philadelphia and Baltimore for a Market. The lot we saw, we understand are a few thousand to be taken off rather as a sample for workmanship and price. These buckets were manufactured by Rufus Davenport at Milford, where is fitted suitable machinery for making them, and also for making water pails of a neat pattern and very durable.

We understand there is also another factory of a similar kind at Great Works, where business is vigorously prosecuted, and another still at Monroe, a few miles from here.

A few years since our market was almost wholly supplied with pails and buckets from abroad, and Hingham was then the great fountain head for supplying them. The current has now turned, and our section of the State is able to furnish a supply for half creation. A few years, or, perhaps months of successful labor with the machinery of these factories will pay back all the buckets heretofore purchased from abroad. It is very pleasant to know, that our home manufactures are on the increase, and are prosperous.

Thomas W. Dorr has written a long public address to the citizens of Rhode Island, in which he pointedly rebukes those who pledged themselves to his support, and were afterwards found opposing, and especially to those who urged him on, and then fled and left him alone.

He serves up John Tyler in great shape, and in a few graceful touches, has given a full length figure easily recognized. Thus:

"In the vicissitudes of the political world, the chair of State may be occupied (though it is to be hoped not frequently, sometimes casually,) by an individual who has betrayed his friends without securing the confidence of his enemies—who changes his principles with his habiliments, according to the exigency of the day—whose opinions and motives are distrusted—whose measures and appointments are directed toward personal objects, under the stimulus of an inordinate and diseased vanity, which craves a popular election to a place for which nature and his constituents never intended him—who contaminates all that he touches, and in his turn is worked upon through a dangerous facility of disposition by sinister and unprincipled advisers, (some of them irresponsible,) and who is controlled for the time by the influence that is nearest at hand, enforcing itself with appeals to an indiscriminating credulity and an all grasping selfishness."

We are indebted to the Gardiner Blade for a slip giving an account of this fire—from which we gather the following additional facts.

We understand that some suspicions are entertained that the boat was set on fire designedly.

The flames, it is said, broke out in a part of the boat in front of the engine, where no fire has ever been kept.

The value of the boat was estimated at about \$37,000, and it is said there was no insurance. Nothing of any value was saved, with the exception of an iron safe containing about \$5,000 in money. The steamer was owned, three-fourths by Rufus K. Page, of Hallowell and the remainder by Capt. Nathaniel Kimball, who, since she commenced her trips on this route, has always been her able and gentlemanly commander.

There is much backing and filling now to make the rank and file of the loco party stoop and kiss their new leader John Tyler. The honest men of the party recoil from him with horror, but the leaders are pledged to whip them in, and "such a gitting up stairs" as will soon be exhibited has not been seen for many a day. Tylerism and Locofocoism are to be double and twisted into one thread, at least so far as the leaders, who have clutched office are able to "manage the democracy."

The Steamboat J. W. Richmond—Burnt.

We learn that the Steamboat J. W. Richmond, while lying at the wharf at Hallowell, on Sunday night, with several of her crew on board, took fire at midships and the progress of the flames was so rapid that one of the crew was aroused only in time to save himself by jumping from one of the windows into the river. The boat was entirely consumed, but we have not heard whether she was insured.

A large number, some four or five hundred of the Merchants and commercial men of Boston, have addressed a complimentary letter to Levi Lincoln late Collector of Boston expressing their warm and entire approbation of his official course.

From the American Protector.

Protection.

MR. EDITOR.—In reading the New Hampshire Statesman and Journal of last week, my eyes caught the following sensible remark from one of its contributors. "The American system—the protection of the labor of the country should be maintained. If the people had consumed goods produced in Manchester in New Hampshire, in lieu of Manchester England—they would have owed no national debt. We cannot raise wheat to compete with the farmers of Illinois—but we can make goods which will buy it and put both upon an equality—exchanging commodities with our own countrymen and by our connexions in the South and West, make one common interest, the bond of the union. Under the influence of the present tariff millions of specie are coming into the country, in lieu of French and English manufacture of fancy stuffs. The last steamer brought a million and a quarter; and it may safely be predicted that before November, more than thirty millions will have been received. Suffer this wise law to remain, and our exports will reach thirty and forty millions above our imports, entirely reversing our national position for the last ten years. This will give us a firm basis for a good circulating medium. And for this the Whigs must and will make a strong battle—and this is so manifestly for our great benefit, that it seems impossible but that they should be sustained." Notwithstanding the present condition and past history of our country, sufficiently confirm the truth of the above quotation, there are many, who advocate measures and support a national policy directly contrary. Notwithstanding the present tariff operates so favorably; bringing the balance of trade in our favor, and the specie, which has been exported to pay foreign debts, back again to this country; there are many who wish for its repeal, and who will undoubtedly cast their votes, and lend their influence to accomplish this object. Yet every individual, possessing a common share of intelligence and free from party prejudices, must admit, if he will, only candidly and rationally, investigate the subject for the express purpose of learning what is the true national policy, that, under existing circumstances, without protection the nation cannot be prosperous and happy. But owing to these prejudices and opinions formed, without sufficient investigation, we often overlook our own interest and support measures, without having any better reasons to assign for so doing, only that they are of our party. Thus, virtually acting, as though we idolized our party, implicitly, that, whatever measures it may adopt; they will be politic, just and right. It is the idolizing of party and disregarding principles, that creates political dissensions, produces instability in government measures, oppresses the laboring and industrious part of the community, spreads ruin and causes failures in every kind of business, from one extremity of the nation to the other.

Though we are conscious, that this is in a measure, the present condition of our country, yet we remain, for the most part, firmly attached to the party in whose ranks we have been brought up from the earliest infancy. We know, also, that its name, whether it be whig or democrat, of itself is nothing—that to hurra and talk loudly of equality, condemning the rich and pretending to have a great regard for the rights of the poor, is only air mechanically agitated, for the purpose, perhaps, of deceiving the simple and unreflecting. In view of these facts, that all these pretensions and sympathies for the poor, are shadows of what may be, but not necessarily substance, he, who wishes to know the truth will not rely upon those alone, but will look beyond to the measures advocated, the real fruit of the true and living sap, which maketh known the nature and giveth a character to the tree. Let us then as a people, judge of the merits of each party, not from the noise it makes or the promises given, but from the measures advocated and the policy pursued. It is for the people to say, whether, they will have those measures which will bring the specie back into our country, producing a sound currency with an increased amount of circulation; or those that will carry it out and thus create a low market and stagnation of business.

The U. S. sloop of war Preble, arrived at Boston Thursday from the Mediterranean. She sailed from Gibraltar July 25th, and from Angra, (Island of Teceira) August 1st 1843.

BY THE MAIL.

Arrival of the Britannia.

The Britannia arrived at Boston on Sunday last.

The British Parliament was to be prorogued on the 24th by the Queen in person.

There are continued rumors of the intended resignation of Sir Robert Peel; but no importance appears to be attached to them in well informed circles.

In the British Parliament, on the night of the 11th, the subject of the treaty of Washington raised a discussion between free and slave holding countries, in which the old ground of the right of search, fugitive slaves, and the British law which gives liberty to the slave when he touches her soil, was gone over *ad nauseum*.

The Attorney General gave it as his opinion that, under the clause of the treaty for the mutual surrender of criminals, if the offence of the party took its character only from the slavery of the accused, he would not, under the bill before the House, be delivered up.

Mr. Duncombe adverted, in the course of his speech, to some instructions said to have been given by the American Government to its officers, in contravention of the Washington treaty. He questioned the sincerity of Sir Robert Peel's Government on this subject, and asked him to lay the instructions on the table. Sir Robert refused, adding that he saw no ground for the imputation.

Ireland.

In Ireland, matters continue stationary. One or two exciting debates have taken place in Parliament on the subject of the present anomalous state of that Country, which have exhibited some of the members of the Conservative party attacking with great bitterness, and doing nothing policy of the Government. Neither the rent nor the exertions of O'Connell suffer any diminution. Foremost in the parliamentary fight has

been Lord Brougham, to whom the present condition of Ireland is a source of great uneasiness. One of Mr. O'Connell's great meetings was held at Ballyglass on Sunday, the 5th, for Wicklow county, Mr. J. Copeland of Dunleavin, was the chairman.

The Repeal demonstration on the famous "Hill of Tara," in Ireland, exceeded in enthusiasm every thing that had preceded it. It is estimated that three hundred thousand people were present.

NOTICE TO CONTRACTORS.

THE undersigned will receive proposals until the 12th inst., for finishing the lower school-room in the Union street school house, according to the following specifications, viz:

The floor to be laid by bedding six timbers low enough to leave the room when finished eight and a third feet in the clear, laying on to those timbers 4 by 6 joist with a double floor of suitable seasoned boards for the school-room, and plank floor for the wood room.

A close partition of plank under the first large timber on the south end. The school-room to be furred, lathed and plastered on top and on all sides, in a proper and workmanlike manner, except that it is to be ceiled on all sides as high as the window sills, and on the south side high enough for four feet of the upper part of the ceiling at a proper elevation to be used for a blackboard, which is to be made and painted in a proper manner.

The seats, desks and Master's desk to be as it respects workmanship and materials like and equal to those in the upper school-room in the same house.

The windows to be cased, capped, and provided with suitable fastenings to lower the top part of the window—suitable doors with lock and appurtenances as the doors above—suitable stairs and passage from the entry above to the wood room—Pillars to support the flooring—all according to a plan to be furnished by the Committee, and the work to be done under their direction and to their satisfaction.

FOR TWO DAYS ONLY.

UNDER A SPLENDID CAPACIOUS PAVILION,

Prepared expressly for the Occasion,
CAPABLE OF CONTAINING
10,000 PERSONS.

MESSESS. RAYMOND & CO., having invited all the Animals in the United States, will exhibit them in Bangor, Sept. 15th and 16th.

The Proprietors having engaged **HERR DRIESNACK**, the unrivaled animal Subduer, with his Leopards, Panthers, Tigers, and majestic Lion, will introduce him in the character of an outcast slave, banished to the forest, expiring from hunger and fatigue, when a fierce Brazilian Tiger darts upon him from an upper cavern, prostrates and seizes him by the throat—a fight ensues, in which he subdues the Tiger, and finally secures him in his den. After which he will harness his noble Lion to an ancient Car, and drive over a road erected across the Pavilion. Concluding with a most bold, grand and daring display of courage ever presented, in having a whole caravan of wild animals let loose upon him at the same time, who will then playfully exhibit his skill in subduing and controlling this matchless exhibition.

The exhibition contains a larger number and greater variety of animals than has heretofore been exhibited together, the whole of which is secured in strong iron cages.

This magnificent **MENAGERIE**, preceded by four mammoth **ELEPHANTS**, in harness, attached to the Music Car, will enter the City through Main street, by the Bangor House, and pass through the principal streets to the place of Exhibition, on York Street.

Hours of Exhibition.—On Friday, Sept. 15th, from 2 to 6, and from 7 to 10, P. M. Saturday Sept. 16th, from 8 o'clock, A. M. to 12, and from 2 to 6, and from 7 to 9 1/2 P. M.

FARM FOR SALE.

THE subscriber offers for sale, that tract of land known as the Todd farm in the town of Chester. It is pleasantly situated on the river about four miles above Lincoln village and consists of about 55 acres mostly excellent tillage land, including eight or ten acres of intervals. There is a small house upon it somewhat out of repair and a moderate sized barn. To an experienced and practical Farmer, who would improve it himself, this Farm would be highly valuable, as it will yield with suitable cultivation a large crop of Hay and Grain, which in that situation must always command a market at good prices. It will be sold on reasonable terms on application to me at Bangor.

LORRAINE'S PILLS.
OR VEGETABLE UNIVERSAL MEDICINE
CURATIVE
OF THE
French College of Health, in Paris.

THE following letter was received yesterday by mail from Salem. It gives another evidence of the great success of Lorraine's Vegetable Universal Pills.

SIR—I have been for many years a sufferer from the ravages of Scrofula and Cancerous Humors, which at last seated on the vitals, and exhibited all the threatening symptoms of consumption. The general inability of all remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon restored to a perfect state of health.

J. E. NEWHALL.
Salem, 21st May, 1841.

The following letter from J. B. Light, Esq. is worthy of notice.

SIR—I took one of Lorraine's Vegetable Pills last evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on, which had great charms, and I enjoyed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine.

Yours truly,
J. B. LIGHT.
Nov. 20th, 1841.

[From Boston Daily Mail.]
Somebody wisely says, that a cap loaded with jewels and flowers will not cure the headache, nor gold chains prevent the consumption. Lorraine's Vegetable Pills have done both.

SIR—I have been effectually cured of a severe headache by the use of Lorraine's Pills.

SARAH NOYES.

SIR—My daughter had all the threatening symptoms of a Consumption, such as cough, pain in the side, &c., together with general debility, but has had her health restored by Lorraine's Pills.

Rev. J. KNIGHT.
New York City, Nov. 1, 1841.

Family Medicine.
SIR—I have used Lorraine's Pills in my family as a family medicine, and I would most earnestly recommend them to all persons, as the best medicine that can be procured. I would not be without them—they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from 20m to \$100 per year for medicines and physicians, since then I have had no other doctor than Dr. Lorraine's Pills.

JAMES NEAL.
Hartford, Conn. July 3.

Lame Back.
Sarah Snow was cured of a lame back in one day, when she had been unable to dress herself alone for two weeks.

Susan Jones of Boston, cured in 36 hours of lame back and side of three weeks standing.

Sick Headache.
Mrs. Bird of Providence says, that 'Lorraine's Pills have proved a real blessing to her. It has surpassed any thing that has been brought to the public notice. I have been cured of a sick headache that had afflicted me for years, by the use of Lorraine's Pills.

THE CONDITION.
The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unhealthy accumulations. Lorraine's Pills admirably effect this, because they cleanse the bowels and purify the blood. The human body is always healthy when the bowels are regular, the blood circulates freely, and disease invariably commences when obstructions take place in the bowels.

The extraordinary virtues of Lorraine's Pills depends upon extracts of over 50 different vegetables, all so admirably combined as to purify, nourish and invigorate the human system.

THE COUGH LOZENGES
Are beneficial in all cases of common colds, whooping
cough, asthmatic affections, inflammations of
the throat and lungs; they are also particularly
beneficial for the croup, and a very good substitute
for the celebrated Hare Syrup, Cough Candies,
Quincy Cordials Pulmonary Balsams, &c.

THE WORM LOZENGES
Are a safe and sure remedy for Worms. Two or
three is a dose for very small children, and five or
six for larger ones.

THE DYSENTERY LOZENGES
Are a certain and agreeable remedy for Dysentery,
Diarrhea and bowel complaints of children.
Full directions as to diet and manner of taking
them, accompany each box.

THE HEADACHE OR CAMPHOR
Lozenges are beneficial in cases of nervous head-
ache, in feverish affections of a typhus character.
They are useful in rheumatism and peripneumony;
also in eruptive diseases, to favor the eruption or
bring it back when it has suddenly receded from
the skin, as sometimes happens in measles and
small pox.

FALES'S CYPRIAN* HAIR TONIC,
FOR THE GROWTH, PRESERVATION AND RESTO-
RATION OF THE HAIR.

No matter how bald a person may be, a growth
of hair will be produced, and as naturally too, as
the herbage grows on the plain, or the lily in the
valley. This tonic is warranted to cleanse the hair
from Dandruff, and every other accumulating sub-
stance. Is your hair dry and falling off?—the tonic
will moisten and fix it strongly in the head. Is your
hair thin or your head bald?—the tonic is warranted
to satisfy the largest desires in thickening the
hair in the first case, and covering the Bald Head
with natural hair in the second.

It is composed of those remedial agents that re-
store the skin at once to a sound and healthy con-
dition: when thus restored, you will soon discover on
the head a short, soft, and beautiful growth of
young hair gradually increasing in length, till it be-
comes as your other hair was before you began to
lose it.

*The question is often asked, from what is the word
Cyprian derived? Ans.—from the word Cyprius, the
name of a beautiful island in the Mediterranean Sea.
The inhabitants of that far famed island, are as well
known for their fine glossy hair, as for their bright sparkling
eyes. It is known, however, that any other people,
except those of Cyprus, have never used this Tonic until
its introduction into the United States.

HIGHLY ESTEEMED MEDICINES.
FOSTER'S EGYPTIAN BALM OF
LIFE.

OR NATURE'S GRAND AND GENIAL AUXILIARY.
A SPECIFIC for Consumption, Great Bodily Debility,
Old and firmly Rooted Coughs, Flatulency, Indigestion
and Bilious Disorders, Constiveness and Diarrhea,
Scorbutic and Scrofulous Affections and Female Complaints.

The Egyptian Balm of Life being an invaluable Family
Medicine, should not be neglected in the Spring and
Fall by any member of a family, as a Grand Auxiliary
to the efforts of nature, in throwing off superfluous hu-
mors, generated in the winter and summer months, thus
preventing as well as otherwise curing the above dis-
tressing maladies, and giving a healthy tone and proper
action to all the grand operations of the system.

This Medicine has long sustained an unrivaled char-
acter for excellency in the private practice of many
eminent practitioners in Europe, yet remaining at the
same time undervalued in the possession of the individual
of whom it has been prebathed.

It is now exerting a salutary influence on this side of
the Atlantic, and it is recommended to those who may
be laboring under any of the diseases for which it is de-
signed as a specific, and also as a preventive of disease,
on its first appearance.

For a more particular description of the above medi-
cine we would refer to the envelope accompanying each
bottle.

Many valuable certificates might be produced of the
benefit received therefrom. Hundreds in the State of
Maine, as well as in other States, can testify to its su-
perior efficacy, but the proprietor is willing for the pub-
lic to judge for themselves by trial. A few names how-
ever, are referred to in the envelope accompanying each
bottle.

Foster's Celebrated Nerve Ointment,
For the cure of Sprains, Bruises, Cramp, Rheumatism,
Contracted Muscles, Sore Throat, Stiff Neck,
Pain in the Breast, Back or Joints, Throat Distemper,
the Piles, &c.

The general testimony concerning this Ointment, from
those who have proved its merits, is, that it is too valu-
able a medicine to be neglected. And indeed we might
fill a book of an hundred pages in giving incidents of its
happy effects on the suffering.

N. B. The above Medicines are prepared only by W.
A. Greenough, Portsmouth, N. H., and sold wholesale
and retail by him.

Also, sold wholesale and retail by G. W. LADD, Ban-

BUCKSPORT HIGH SCHOOL,
AND CLASSICAL INSTITUTE.

THIS School, now in operation, will continue
permanently under the care of JOHN B. L.
SOULE, A. B., an experienced and successful In-
structor.

It will be the purpose of the Principal, and of
those who may be connected with him, to maintain
a school of the first rank—where, by means of a
thorough and progressive course of study, a uniform
and judicious discipline, and a careful vigilance over
the intellectual and moral habits of the pupils, the
young of both sexes may enjoy the greatest facili-
ties for acquiring a sound, practical education.

Thorough instruction will be given to young
gentlemen preparing for college, fitting them to enter
the Freshmen, or advanced classes.

Terms of Tuition. For Common Studies,
\$4,00; For Higher Branches and Languages,
\$5,00.

Board may be procured on reasonable terms—
and permanent arrangements will soon be made, by
which pupils from abroad will be accommodated at
very favorable charges.

The Fall Term will commence September 11th,
and continue eleven weeks.

LIN'S CELESTIAL BALM OF CHINA.

Statements honest, plain and true. Will
you believe and profit by them, or re-
ject and suffer.

THIS Balm or Salve will be found unlike any
other preparation. There is no Fiction or Im-
agination in its qualities. It will cure any sore that
can be cured at all. It will take out inflammation,
and take down swellings; and by thorough friction
over the parts externally, will by counter irritation,
remove inward soreness to the surface.

A YOUNG WOMAN, for years afflicted with
a running sore, called a fever sore, cured by the use
of this Balm in about three weeks.

A CHILD, with great hoarseness and difficult
breathing, relieved and cured by rubbing it well on
the chest and stomach, and covering a flannel with
the Balm and laying it over the breast.

A JUDGE of one of our courts had piles several
months without knowing the name of his complaint,
he used one flask of this Balm and was cured.

A GENTLEMAN who had an attack of piles
every year regularly for ten years, cured himself
five years since by this Balm, and though plainly
threatened at least fifty times since, has kept off an
attack by rubbing on the Balm when any uneasiness,
soreness, or fulness is felt about the parts.

A PRISONER cut a frightful gash in his foot
with a piece of broken glass; he was cured in a few
days by the Balm. The same bottle cured all the
sore fingers, legs and feet in the prison.

AT THE ASYLUM for Aged and Indigent Fem-
ales, it has been used with signal success. One
of the lady patronesses, Mrs. Nixen, has left her
name, and wished sufferers referred to these facts.

NO MAN OR WOMAN can possibly have any
uneasiness about the parts. It is far better to
prevent than cure any calamity or ailment.

DIRECTIONS, &c., FOR ITS USE.
FOR THE PILES—If the parts are very sore, re-
duce a little of the Balm by mixing half laid with
it. After one or two trials that way, you must use
it without reducing it. You never can use too much
at a time—if a whole bottle could be absorbed in
two applications, by long friction, it would be all the
better.

IF COSTIVE, use it well before going to stool
—this will do wonders.

TO PREVENT any attack of the Piles, you
must use it whenever you feel a fulness of the parts,
and an attack will be impossible. Hundreds thus
keep off this internal complaint entirely.

INTERNAL PILES
May be reached by injecting it with a syringe,
with a large open point to it. This syringe, used
expressly for injecting this, and the Valley's, or
Hays' liniment, may be found with those who
sell these articles. See drawing. Or in some cases
may be reached with the finger, or covered
with a piece of silk smeared with the Liniment.

PROJECTING PILES.
That won't return at all, may be reduced by
white lead, ground in oil, and put on over-night, in
a spoonful from a point shop.

VERY COLD WATER should be applied by
washing the parts well after stools, particularly if
just before bed-time.

In very old cases of Piles, when there is appar-
ently a deposit and discharge from the parts, or when
the parts are very sore or inflamed, use "DAL-
LEY'S PAIN EXTRACTOR" alternately with the
"CELESTIAL BALM," and your cure is
certain. Use the syringe.

Hoarseness, etc.
IN DIFFICULT BREATHING—Spread it
on linen or flannel, and lay it on the breast, the
having rubbed the breast well with it—the relief
will be felt directly. So with Coughs, and
especially with Hoarseness, or Sore Throat—rub till
the skin becomes tender, then spread it on flannel, and
bind it on, and you may depend it will cure you. If
you do not believe it now, you will when you have
once tried it.

Rheumatism.
RHEUMATISM, and all pain in the joints, and
stiffness, must be cured by it by rubbing the body
until the skin becomes tender, and then bind
more on well with flannel.

KOLMSTOCK'S VERMIFUGE.
THIS remedy for worms is one of the most
extraordinary ever used. It effectually ex-
tracts worms of all sorts, from children and adults.
THOUSANDS perish by worms without the
cause being known. Some other reason is assigned
for their sickness, until too late to cure the mal-
cause.

What immense responsibility then rests upon the
parent who does not know, and the doctor who does
not understand, the complaint which is destroying
these precious flowers of life—children.

What should be done?
The answer is plain. Give this vermifuge, and
it will be sure to do good, if they have no worms; and
if they have, it will destroy and eradicate them
with a certainty and precision truly astonishing.

It cannot harm the smallest infant or the strongest
adult. There is no mercury or mineral in it. Its
cure is the basis of most worm remedies; and the
remedy is sometimes worse than the disease. It
never uses lozenges, but rely upon this. Every per-
son will be convinced on one trial, that it is the most
perfect cure ever invented.

The immense sale that this vermifuge has had,
sure test of its value and the estimation in which
it is held by families. It would be quite too expensive
to publish the volumes of certificates that have been
given for this article, and the users of it are request-
ed to spread the name to all persons whom they
think may be benefited by it.

Speak of it in all families, and you will do your
duty to your fellow creatures, and feel assured of
the approbation of all good men, and will receive
your reward in heaven.

We call on all good citizens to make known the
effects of this wonderful remedy.

Remember and ask for Kolmstock's Vermifuge,
though Falmestock's is supposed to be the same.
The one that has become known to you from
the advertisement should be used, in justice to the
proprietors.
